AIRCAT2410

AIRCAT2410 Dissection

This one would have been a really pleasant surprise for most of you. With the first 2 sections being much easier as compared to the previous AIRCATs, some of you might have missed out some precious time just to believe the same – wondering if something was wrong with your assessment. And once again, this AIRCAT would have highlighted the need to enter a test with an open mind, with no fixed number of attempts being good. Trusting your ability and sticking to the basics (after which your speed will automatically adapt to the toughness of the test) should have done the trick for most.

In fact, this time around, most of you would have been feeling too "fulfilled" to make the best use of a relatively easy QA section!

Let us look at a detailed sectional analysis in terms of (relative) difficulty level:

	Easy	Intermediate	Difficult	Difficulty Level	Indicative Cut-offs Correct Questions/(Marks)
Section I (VRC)	5	12	6	Easy to Intermediate	14 (25)
Section II (DILR)	4	12	4	Easy	17 (30)
Section II (QA)	6	11	5	Intermediate	8 (14)
Overall	15	35	15	Easy to Intermediate	39 (73)

Tentative sectional and overall benchmarks are given below:

	98%ile	95%ile	90%ile	85%ile
Section I (VRC)	35	29	25	21
Section II (DILR)	41	36	32	29
Section III (QA)	22	18	14	12
Overall	81	71	63	58
