AIRCAT2513

AIRCAT2513 Dissection

AIRCAT-2513 would have been another change for most of you who have been regular with your AIRCATs. This variation meant a relative tough first 2 sections but an unexpected bonanza at the end, with an easy as CAT-2014/15/16/17 Section-3! Just like handling and adapting to the needs of a tough section or a test, you also need to adapt to a super-easy section. The most crucial thing still remains that you keep going as usual without over-compensating for any fixed number of attempts in your mind.

As usual, this AIRCAT would have once again emphasized the need to play the conditions rather than chase a pre-conceived target. So, anyone who approached each section in the test, and each question within a section, with an open mind, with no fixed number of attempts being ideal, would have done much better. A lot of you would have given up the fight because of the first 2 sections, and therefore, the spread of scores (between those who really excelled in the QA section and the others) would have been much higher in this AIRCAT as compared to the preceding ones.

Let us look at a detailed sectional analysis in terms of (relative) difficulty level:

	Easy	Intermediate	Difficult	Difficulty Level	Indicative Cut-offs Correct Questions/(Marks)
Section I (VRC)	8	11	5	Intermediate	12 (24)
Section II (DILR)	5	4	13	Intermediate to Difficult	8 (17)
Section II (QA)	8	10	4	Easy	18 (35)
Overall	21	25	22	Easy	39 (76)

Tentative sectional and overall benchmarks are given below:

	98%ile	95%ile	90%ile	85%ile
Section I (VRC)	33	27	22	18
Section II (DILR)	22	18	15	14
Section III (QA)	43	38	33	31
Overall	81	71	63	58
